Human Resources

Landworks Resource Inc

315-5155 130 Avenue S.E

CALGARY, AB T2Z 0N3

Re: Kaleb (Junior Web Developer)

Dear Human Resources

I was very interested when I found out that Landworks has unpaid web developer internship from our school's recruiter. I would really love to be the right candidate for this role. One of the things that sets Landworks apart is the fact they offer government funded courses and I would like to work for Landworks because I love their Land Consulting and Project management services. I've closely reviewed the needs and requirements for this role and believe that my qualifications have prepared me to join a team like Landworks Resources so that i can gain a little bit of experience for the industry.

While in school, I worked hard to sharpen my HTML, CSS, sveltekit, supabase and javascript skills. I am a very fast learner and attentive to details when addressing high-volume task loads to meet deadlines. I am inspired by creating a beautiful work of art from a white HTML canvas. I love to make a positive impact by applying interesting skills and my problem-solving abilities allow me to address challenges to achieve results.

My academic experiences as well as out of school experiences, like youth ministry leader have served me well in developing my leadership, teamwork, and problem-solving skills. I work well to use clear and concise communication to interact professionally with co-workers, supervisors and customers. I look forward to speaking with you regarding

my skill set and attributes which I believe will serve as an asset to support Landworks goals. Please take a moment to review my attached resume. Thank you for your time and consideration. Sincerely,

Kaleb Berhane
